1. Discuss routes and check that they are RESTful
2. Discuss user authentication
    a. Registration tied to email or phone number
    b. Best method (can we do both? Can we do a search method?)
3. App.jsx
4. Steps remaining for MVP
    a. User authentication/RSVP
    b. Adding/deleting items from supply list
    c. Claiming items on supply list
